

## MAKE SURE YOUR BILL IS ACCURATE

Make sure we are charging you for actual usage on your water bills. The front of your water bill will have “R” for “actual” and “E” for “estimated” readings. Your sewer charges are based on your water usage. If you have a dog, locked gate, bad water meter/wire or some other reason that we cannot get a good “actual” reading, please call to arrange to have a meter tech come out to your home and get an actual reading. Please call (734) 753-9375, ext. 123 or 124 for assistance.

All estimated readings are based on last year’s usage.

If you notice your water bill has been estimated (E-1), please call the office and make an appointment to have your water meter repaired or replaced.
